Statement of Congressman Dan Benishek (MI-01)

-- Representative Comments On Mitt Romney's Remarks in Ann Arbor --

WASHINGTON, DC: Congressman Dan Benishek (MI-01) today released the following statement:

"I commend Governor Romney for choosing the University of Michigan Cardiovascular Center as the location to outline his vision for health care reform in America. The Governor is right to suggest that states should experiment with solutions that best suit their residents. My greatest concern with Obamacare has and remains the fact that a 'one size fits all' federal program does not put Michigan patients and doctors in control of their healthcare. The governor and I agree that by interjecting more free market principles into our health care system we can improve quality, increase access and lower costs for all Americans."
